# **How my web page get the first page on google search results?**

You will need a lot of research on SEO (search engine optimization). Google indexes site based on many different things, such as content, links to your site, and pagerank.

I would suggest you take some time and learn as much as you can about SEO, google searches can give you a lot of information. If you don't think you will understand SEO, or have enough money, I would suggest paying someone to do the work for you. Good luck.
