do u know what is Search engine optimisation, can u please help me in trcing free ebooks regarding this subj.?

i hv been tring to know what is SEO for a week but i couldn't get the proper information.so, i taught of taking help of talented people visting my Q ?please help me out ?

There is a software program called SEO Elite their website has a whole list of free videos y you could watch that will give you some good information on SEO. You don't have to buy the software to see the free videos but I would highly recommend it.
